

Inserm **biology technician** position at the **Université Côte d'Azur**

We are seeking a talented and motivated candidate with a Bachelor Degree +2 in biotechnology (for instance graduated from a IUT) for a technician position to work in the teams of Dr. Matteo RAUZI and Dr. Arnaud HUBSTIENBERGER at the Institut de Biologie Valrose (University Côte d'Azur). This job offer can eventually result in a permanent position.

Tasks to be fulfilled:

- Learning and conducting genetic crosses for both the *Drosophila* and *C. Elegans* model systems.
- Learning and applying confocal microscopy imaging techniques on fixed and living embryos.
- Conducting molecular biology and biochemical experiments.
- Preparing solutions and media for the members of the teams.
- Helping the members of the teams in their experimentations.
- Taking care of the orders for consumables and small equipment.
- Taking care of the safety procedures.
- Fostering cohesiveness among the people in the lab.

Skills required:

- ★ Mastery of the English language
- ★ Maintaining a lab notebook
- ★ Punctuality
- ★ Precision
- ★ Rigorousness
- ★ Team spirit
